WORKING EXPERIENCE

Freelance Full-Stack Web Developer | Remote, Onsite, Hybrid Work Nov 2024 – Present

As A Versatile Freelance Web Developer, I Offer Flexible Working Arrangements Whether Remote, Onsite, Or Hybrid To Meet The Unique Needs Of My Clients.

- Developed Custom Web Solutions: Designed and deployed bespoke websites and applications tailored to client needs, utilizing technologies such as React, Laravel, FastAPI, Nde.js, Mysql, PostgreSQL, MySQL and MongoDB.
- Front-End Design: Created engaging and responsive user interfaces using HTML5, CSS3, JavaScript, and frameworks like Tailwind CSS or Bootstrap.
- Back-End Development: Built and maintained server-side applications, RESTful APIs, and database architectures to handle secure and efficient data flow.
- E-Commerce Platforms: Developed e-commerce websites with features like payment integration, product management, and real-time analytics.
- Collaborative Projects: Worked closely with clients, designers, and marketing teams to translate requirements into technical solutions.
- Maintenance and Support: Provided ongoing support for live applications, ensuring performance optimization, bug fixes, and regular updates.
- SEO Optimization: Improved website visibility through SEO best practices, boosting organic traffic for clients.
